Comments:

Witch/Skeleton Animation: \_\_\_ quality \_\_\_ originality    \_\_\_ neatness

Comments:

House/Ghost Animation: \_\_\_ quality    \_\_\_ originality    \_\_\_ neatness

Comments:

All animations should be placed on a webpage (you should style this page and make it have spooky colors) with no more than two animations per line/paragraph. Provide a short overview about you (can be fun or entertaining) or some Halloween humor (don't use your last name). On your page below your animations, write about which animation you believe is your best work and the process you used to create it (a few paragraphs, and go in detail).

Page+header jpg + gifs+paragraph= 46 pts

➔ Save as index.html and upload the HTML file, CSS file, and the JPG/GIFs to your website. Create a folder for animations first. Be sure it works. Put URL at top of page.
